## Saltery Burns At Holbrook

**CATCHES FIRE IN UNKNOWN  
MANNER DECEMBER 8**

Walter Waters arrived in on the Glenora the first of the week and reported that the saltry at Holbrook caught fire on Tuesday December 8th and burned to the ground with a loss of from ten to twelve thousand dollars.

The saltry is owned by the Holbrook Fish Co. of which Mr. Waters is manager, and has been running for several years.

The fire started in an unknown manner about seven o'clock in the evening and had a good start before it was discovered. Another building adjoining the saltry was damaged slightly. About a hundred tons of salt stored in the saltery was destroyed.

Holbrook is on Kosciusko Island and about one hundred miles from Wrangell.

## Harry Caught All The Fish

Several boats made the trip down to Pats Lake again last Sunday carrying a large crowd of skaters and fishermen. The skating was fine but Harry Gartley was along so nobody caught any fish.

## Rink To Have Own Power

The Rink Theater will have a light plant of their own according to the announcement of Manager Lewis of that show house. A large engine room has been built onto the back of the Rink this week and they expect their engine on the next trip of the Humboldt. Mr. Lewis has purchased the old dynamo used formerly to furnish lights to the town and will install a modern up-to-date plant for furnishing lights for his popular show house.

## Photoshow Gets New Converter

The Wrangell Photoshow received a converter on the last Alki from the south and have installed it in the operating room at that popular picture house. The house is now using the city light and with the help of the converter are getting a good picture.

## Boat Catches Fire Tuesday

A light fire was reported on Geo. Cards boat lying on the beach in the lower end of town Tuesday afternoon at 1:30. The fire was extinguished with little loss.

## Worden Has Fine Pictures

If you are looking for a good unexpensive Christmas remembrance for some friend in the east you can not find a better one than one of those beautiful Calenders that Postmaster Worden has on exhibition in the postoffice building. The views are all local photographs and some of them are a work of art. Go around and take a look at them.

## Grand Jury Makes Report

The grand jury at Ketchikan passed upon 21 bind-over cases and returned 23 true bills.

The grand jury recommended the suppression of slot machines, dice and other gambling devices in this district; that a game warden be appointed for Ketchikan district, that a bounty of five dollars be placed on wolves and that piling for cannery trap sites be driven in such a manner as not to interfere with navigation.

The weather that has been holding out a little cold for the past two weeks broke last Sunday night and Monday morning the earth was covered with a light coat of the beautiful snow.

## Great Pictures For Photoshow

Manager Bender of the Wrangell Photoshow reports that he has some great features coming soon, among them are: "The Lady of the Lake" the story of that famous classic in three reels, "The Ruby of Destiny" the adventures of the great ruby of Styr in six reels and "In the Watches of the Night" a powerful drama in three reels featuring Marion Leonard.

## Saturday Dance At Hotel

Preparations are being made for big Saturday night dance at the Wrangell Hotel next Saturday evening. The musicians are tuning up all ready so you are assured some good music and if you can't have a good time at a hotel dance you are past the pleasures of life. Everyone invited. Popular prices.

## Aeroplane For Nome District

It is now assured that Nomeites will have with them next year an aeroplane, the same to arrive on the first steamer from the outside next spring; and to be used as the means of transportation to all points on the Seward peninsula, a machine with a carrying capacity of approximately 1,000 pounds with a motive power of 120 horse power. It is to be a biplane resembling the type known as the Curtis, with a cabin situated between the wings capable of accommodating seven passengers comfortably besides the operator. The cabin will be completely enclosed, with windows to allow a commanding view of the entire country below and around which they travel.

## Passengers On South Steamers

The Alki of the Northland S. S. Co. sailed south Sunday afternoon. Her passengers from this place were: for Ketchikan, F. H. Gray; for Seattle, Fred Stackpole and wife; W. Woodbridge and I. Lowery.

The City of Seattle bound for Seattle came in last Saturday. Her passengers from here were: Mrs. Smith, Miss Smith and Miss Eva Foss.

## Meeting Date Is Changed

As the regular meeting day of the Civic Improvement Club comes on Christmas Day, the meeting will be held Friday afternoon December 18th, at the city hall. All members are requested to be present as there is important business to come before the Club.

## Dream Man Misses Boat

Fred Purinton, the well known "Dream Man", was a passenger for Juneau on the last trip of the Alki, but he likes Wrangell so well that when the boat arrived here he hurried up town to meet his many friends and after making the rounds went back to the dock in time to see the tail light of the Alki going around Five Mile Island. Fred says Wrangell is a fine town but he is going to sleep on the dock until the next boat sails north.

## Pacific Fisherman Issues Good Number

The November number of the Pacific Fisherman arrived in Wrangell this week and has attracted a lot of attention as this is the Alaska Fisheries Number and is one of the best numbers along that line it has ever been our opportunity to read. The number is a pictorial history of the salmon canning industry in Alaska and it would be well for everyone to get a copy to keep for future reference.

A society called the "German-Austrian-Hungarian Relief Fund of Southeastern Alaska" has been formed at Douglas. Meetings will be held each Monday evening.

## Bank Soon For Wrangell

Mr. F. Matheson, who has just returned from a trip to Seattle, brings back the important news that in all probabilities there will be a bank established in Wrangell next summer.

Mr. Matheson states that while in Seattle he was interviewed by Mr. R. W. Courtney in regard to the bank. Mr. Courtney states that there is a possibility of raising the money but asked as to the Wrangell business men taking half of the stock, which they will certainly do.

Under the present banking laws there must be twenty-five thousand dollars on hand before a bank is possible, and it is assured that this amount will be raised easily once the town site survey is settled for good.

## Vermont Sails For South

The Vermont, the tender for the Vermont Marble Co. left for the south last Saturday where she will receive an overhauling this winter to be in shape for next season's work. Manager Peterson of the company and E. W. Durbin went south as far as Ketchikan on her, returning on the Jefferson.

Once again the holiday season is up us. On every hand is that  
mysterious feeling of wondering what is going to happen next.  
On the faces of everyone is a smile that shows the happiness they  
feel in their hearts, for this is the time of the year when they are  
thinking of others more than themselves which will cause happi-  
ness for anyone in every walk of life. The person, be they young  
or old, who can find no pleasure in the holiday season is certainly  
to be pitied. Have you noticed the increasing smiles on the faces  
of the school-children as they come home from school? Or them  
trying to slip in the back door to hide some mysterious little bundle?  
It is all a part of the Christmas spirit which rules at this season of  
the year, so let us all get in and try to make some other person  
just as happy as we feel and in doing it we will feel all the happier.

Only eight days to Christmas.

Lets dont talk war—this is Christmas time—think of some-  
thing brighter.

The ladies of the Catholic Church are giving a big card party tonight at Red Men's Hall. Everybody is invited and assured a good time. Remember things start promptly at nine o'clock so be on time and enjoy a good evening's entertainment.

Alaska needs immigrants from northern countries who know how to make the farm produce the most under these climatic conditions. Therefore, it would seem that a special effort should be made to advertise Alaska in Norway and Sweden. If the commercial club is going to advertise in the newspapers, why not send an advertisement to some Scandinavian newspapers, calling attention to the resources of this undeveloped country?—Fairbanks Citizen.

### Notice to the Public

**Houseless Town.**  
Southern Tunis boasts of a house-  
less town having a population of 5,000  
people. They are troglodytes, whose  
fathers before them lived in similar  
caves.

**Effect of American Silver in Asia.**  
In former years, when transport dif-  
ficulties between Kashgar and Rus-  
sian Turkestan were considerable, all  
the silver from which the local Chi-  
nese and coins of Turkestan were  
minted was brought from China prop-  
erly by cart via Lanchow. For that  
reason silver was scarce and had a  
high exchange value in comparison  
with that of places where the influx  
of silver was less restricted by phys-  
ical obstacles. Now, however, accord-  
ing to the Indian (government) Trade  
Journal, American silver is largely  
imported via Russia, and the result  
has been a local depreciation of that  
metal. Prices, therefore, reckoned in  
the local silver currency, have been  
on an upward grade, and as this con-  
dition applies to all commodities alike  
—local produce as well as foreign  
goods—the price of Turkestan imports  
from India has participated in the rise

**Ironing Tablecloths.**  
The effect of a lovely linen tablecloth  
is often spoiled by the network of  
creases caused by folding it. In the  
future when ironing the cloth fold it  
once through the middle, roll and tie  
with a piece of tape. In this manner  
there will be but the one crease and  
the tablecloth will lie flat and smooth  
upon the table.—Indianapolis Star.

**To Illustrate.**  
Example as well as precept was fur-  
nished to the youthful autograph send-  
er who wrote to one of the world's rich-  
est men, asking for an "autograph  
sentiment" and inclosing a two cent  
stamp for his reply. Over his opu-  
lency's signature came the prompt re-  
sponse—on a postcard:  
"A penny saved is a penny earned."  
—Lippincott's.

**Strange Mistake.**  
Old Mrs. Jones entered the drawing  
room unexpectedly and spotted a very  
pretty tableau.

"I was just whispering a secret in  
Cousin Jennie's ear," explained Charlie.  
"I'm sorry," said the old lady grave-  
ly, "that your eyewight has become so  
bad that you mistake Jennie's mouth  
for her ear."—London Tit-Bits.

.401 Caliber

### Self-Loading Rifle.

This new Winchester is reloaded by recoil,  
the repeating as well as the firing mechan-  
ism being under control of the trigger  
finger. A bullet fired from it strikes a blow  
of 2038 pounds—force enough to topple  
over the biggest game—penetration enough  
to reach the innermost vital spot. The  
wonderful in operation and powerful in  
execution, this rifle is neither complicated  
in construction nor cumbersome to handle.

It Hits Like The Hammer Of Thor.
